

PORTFOLIO

Mariia Radych

Hello, I am

Mariia Radych

I am a creative and experienced computer graphic designer from Ukraine with a bachelor's degree and experience in designing and creating a variety of graphic materials. I have strong technical skills and an extensive portfolio including projects for clients in various industries. I am proficient in the use of Adobe Photoshop, Illustrator and InDesign graphic design programs and have experience with web design tools and print preparation. I am organised, punctual and able to work independently and as part of a team. I am a quick learner and open to new challenges.

QUEEN

A queen is not merely a ruler; she is a symbol of elegance and grace. Her public appearances, draped in regal attire, captivate onlookers, while her poised demeanor

The queen becomes a living embodiment of tradition, weaving a narrative of continuity and stability through her regal presence.

A queen's reign is characterized by wisdom and governance.

From matters of statecraft to socio-economic policies, her decisions shape the destiny of the realm.

Behind the scenes, advisors and counselors contribute to the tapestry of leadership, yet it is the queen's acumen that guides the ship of state through calm waters and tempests alike.

The narrative often begins with the queen's ascension to the throne—a moment steeped in tradition, ceremony, and anticipation.

Whether by birthright, marriage, or sheer tenacity, the queen assumes her role as the sovereign, donning the symbolic regalia that signifies not only her authority but also the weight of responsibility she bears.
